

## Berna 15.5Kw Boiler Pellet Stove

ALSO AVAILABLE IN RED

Dynamic Rotary Pellet Loading means a further increase of quality. The main advantage is the complete usage of the pellet inside the tank, increasing therefore the operation autonomy. The Flame is always steady at every operating power.

Karmek One patented the Self-cleaning Brazier®, rotating disc drive. The Self-cleaning Brazier® offers a multitude of advantages:

Constant combustion temperature

Complete combustion: unburned compaction without their release, with sensible reduction of ashes residual.

Self-cleaning: brazier properly cleaned before even turning on, and with all kind of pellet used

Maintenance reduced to minimum for the final user.
