

Capping Cowl

Our Capping Cowl is used to cap off unused chimneys whilst also providing good ventilation. By raising the arms upwards or downwards you can adjust the level of ventilation.

- No special tools required when fitting
- Compact design which allows it to be fitted side by side where space between chimney pots is restricted
- Sold complete with stainless steel strap fixing kit
- Suitable for pot sizes up to 300mm
- 12 Month warranty against faulty material or workmanship. This guarantee will not apply where a cowl has been used with fuel, or in conditions outside our recommendations
