**Dynamic Rotary Pellet Loading** means a further increase of quality. The main advantage is the complete usage of the pellet inside the tank, increasing therefore the operation autonomy. The Flame is always steady at every operating power.

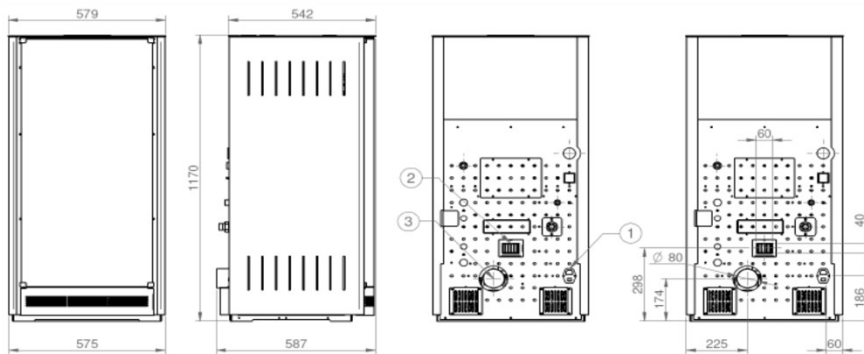

Karmek One patented the Self-cleaning Brazier®, rotating disc drive. The Self-cleaning Brazier® offers a multitude of advantages:

**Constant combustion temperature**

**Complete combustion: unburned compaction without their release, with sensible reduction of ashes residual.**

**Self-cleaning: brazier properly cleaned before every turning on, and with all kind of pellet used**
